

## Potential Challenges faced by new Arrivals

- 1 Learning EAL
- 2 Difficulties in managing the transition to a new country
- 3 Isolation and lack of friends
- 4 Separation from one or both parents
- 5 No previous schooling due to a different age in their home country
- 6 Little or no education
- 7 Different style or emphasis of prior education
- 8 Facing racism in or out of school

The most effective schools are aware of these challenges and consider how they can support new arrivals in overcoming them.

Having effective **admission and induction** arrangements in place will go some way in overcoming the challenges.
